

The community of Feraferia started in Southern California, but now it is widespread, with members mainly in the USA and Europe. We gather sometimes to do bigger rituals, like the seasonal festivals, but a lot of our communication is electronic.

Many people simply incorporate Feraferian ideas into their own practices, while others contact and communicate with us regularly. Please don't hesitate to let us know who you are, and whether we can help you in your quest to connect with the earth.

If you would like to contact members of Feraferia who are perhaps local to you, send an email to us on the Contact Us page. If we know someone nearby, we will forward it to them.
